COPY this Clearance Form for the student to return to the school. KEEP the complete document in the student's medical record.

2013-2014 SPORTS QUALIFYING PHYSICAL EXAMINATION CLEARANCE FORM

Minnesota State High School League

Student Name: Address:	Bir	th Date:	Age:	Gender: M / F
Home Telephone: School:	Grade:	Sports:		

I certify that the above student has been medically evaluated and is deemed to be physically fit to: (Check Only One Box)

- (1) Participate in all school interscholastic activities without restrictions.
- (2) Participate in any activity not crossed out below.

Sport Classification Based on Contact					
Collision Contact Sports	Limited Contact Sports	Non-contact Sports			
Basketball	Baseball	Badminton			
Cheerleading	Field Events:	Bowling			
Diving	 High Jump 	Dance Team			
Football	 Pole Vault 	Field Events:			
Gymnastics	Floor Hockey	 Discus 			
Ice Hockey	Nordic Skiing	 Shot Put 			
Lacrosse	Softball	Golf			
Alpine Skiing	Volleyball	Running			
Soccer	-	Swimming			
Wrestling		Tennis			
-		Track			

(3) Requires further evaluation before a final recommendation can be made.

Additional recommendations for the school or parents:

(4) Not cleared for:	All Sports Specific Sports	
Reason:		-

	Spo	rt Classification Ba	ased on Intensity & St	trenuousness
* * * *	III. High (>50% MVC)	Field Events:	Alpine Skiing*† Wrestiing*	
Increasing Static Component →	II. Moderate (20-50% MVC)	Diving*†	Dance Team Football* Field Events: High Jump Pole Vault*† Synchronized Swimming† Track — Sprints	Basketball* Ice Hockey* Lacrosse* Nordic Skiing — Freestyle Track — Middle Distance Swimming†
Increasing S	I. Low (<20% MVC)	Bowling Golf	Baseball* Cheerleading Floor Hockey Softball* Volleyball	Badminton Cross Country Running Nordic Skiing — Classical Soccer* Tennis Track — Long Distance
		A. Low (<40% Max O₂)	B. Moderate (40-70% Max O ₂)	C. High (>70% Max O ₂)

Increasing Dynamic Component \rightarrow \rightarrow \rightarrow \rightarrow \rightarrow

Sport Classification Based on Intensity & Strenuousness: This classification is based on peak static and dynamic components achieved during competition. It should be noted, however, that higher values may be reached during training. The increasing dynamic component is defined in terms of the estimated percent of maximal oxygen uptake (MaxO₂) achieved and results in an increasing cardiac output. The increasing static component is related to the estimated percent of maximal voluntary contraction (MVC) reached and results in an increasing blood pressure load. The lowest total cardiovascular demands (cardiac output and blood pressure) are shown in lightest shading and the highest in darkest shading. The graduated shading in between depicts low moderate, moderate, and high moderate total cardiovascular demands. "Danger of bodily collision. Thcreased risk if syncope occurs. Reprinted with permission from: Maron BJ, Zipes DP. 36th Bethesda Conference: eligibility recommendations for competitive athletes with cardiovascular abnormalities. *J Am Coll Cardiol*. 2005; 45(8):1317–1375.

I have examined the above named student and completed the Sports Qualifying Physical Exam as required by the Minnesota State High School League. A copy of the physical exam is on record in my office and can be made available to the school at the request of the parents.

Birth Date: _____ Date of Exam: Student Name: History Circle Question Number 1.) of questions for which the answer is unknown. Circle Y for Yes or N for No GENERAL QUESTIONS 1. Has a doctor ever denied or restricted your participation in sports for any reason or told you to give up sports? 2. Do you have an ongoing medical condition (like diabetes, asthma, anemia, infections)?......Y / N List: 11. Has a doctor ever told you that you have? (circle): High blood pressure A heart murmur High cholesterol A heart infection Rheumatic fever Kawasaki's Disease HEART HEALTH QUESTIONS ABOUT YOUR FAMILY 16. Has any family member or relative died of heart problems or had an unexpected or unexplained sudden death before age 50 (including unexplained drowning, Does anyone in your family have hypertrophic cardiomyopathy, Marfan syndrome, arrhythmogenic right ventricular cardiomyopathy, long QT syndrome, short QT 18. Does anyone in your family have a heart problem, pacemaker, or implanted defibrillator?......Y / N BONE AND JOINT QUESTIONS MEDICAL QUESTIONS 29. Has a doctor ever told you that you have asthma or allergies? Y/N 34. Were you born without or are you missing a kidney, an eye, a testicle (males), or any other organ?Y / N 35. Do you have groin pain or a painful bulge or hernia in the groin area?......Y / N Y/N 44. Have you ever been unable to move your arms or legs after being hit or falling? 45. Have you ever become ill while exercising in the heat?..... Y/N 47. Do you or someone in your family have sickle cell trait or disease?..... Y/N

 52. Do you worry about your weight?
 Y / N

 53. Are you trying to or has anyone recommended that you gain or lose weight?
 Y / N

 55. Have you ever had an eating disorder? FEMALES ONLY 58. How old were you when you had your first menstrual period? 59. How many menstrual periods have you had in the last year?

Notes: _

I do not know of any existing physical or additional health reason that would preclude participation in sports. I certify that the answers to the above questions are true and accurate and I approve participation in athletic activities.

Minnesota State High School League 2013-2014 PI ADAPTED ATHLETICS PHYSICAL EXAM FORM Addendum (Use only for Adapted Athletics - PI Division)

The MSHSL has competitive interscholastic Physically Impaired (PI) competition. Students who are deemed fit to participate in competitive athletics from a MSHSL sports qualifying exam should meet the criteria below to participate in Adapted Athletics – PI Division.

The MSHSL Adapted Athletics PI Division program is specifically intended for students with physical impairments who have medical clearance to compete in competitive athletics. A student is eligible to compete in the PI Division with one of the following criteria:

The student must have a diagnosed and documented impairment specified from one of the two sections below: (*Must be diagnosed and documented by a Physician and/or Physicians Assistant.*)

 1.
 ______Neuromuscular
 Postural/Skeletal
 ______Traumatic

 ______Growth
 ______Neurological Impairment

 Which:
 affects Motor Function
 modifies Gait Patterns

(Optional) _____ Requires the use of prosthesis or mobility device, including but not limited to canes, crutches, walker or wheelchair.

2. Cardio/Respiratory Impairment that is deemed safe for competitive athletics, but limits the intensity and duration of physical exertion such that sustained activity for over five minutes at 60% of maximum heart rate for age results in physical distress in spite of appropriate management of the health condition.

(NOTE:) A condition that can be appropriately managed with appropriate medications that eliminate physical or health endurance limitations WILL NOT be considered eligible for adapted athletics.

Specific exclusions to PI competition:

The following health conditions, <u>without coexisting physical impairments as outlined above</u>, do not qualify the student to participate in the PI Division even though some of the conditions below may be considered Health Impairments by an individual's physician, a student's school, or government agency. This list is not all-inclusive and the conditions are examples of non-qualifying health conditions; other health conditions that are not listed below may also be non-qualifying for participation in the PI Division.

Attention Deficit Disorder (ADD), Attention Deficit Hyperactive Disorder (ADHD), Emotional Behavioral Disorder (EBD), Autism spectrum disorders (including Asperger's Syndrome), Tourette's Syndrome, Neurofibromatosis, Asthma, Reactive Airway Disease (RAD), Bronchopulmonary Dysplasia (BPD), Blindness, Deafness, Obesity, Depression, Generalized Anxiety Disorder, Seizure Disorder, or other similar disorders.
