A Directory of Professional Providers
Serving the Autism Community

ausm
autism society of minnesota

About This Directory

Thanks to recommendations from members of the Autism Society of Minnesota, we have compiled listings of professional services and providers in Minnesota and Western Wisconsin who work with individuals and families on the autism spectrum. This directory has taken shape over the years, expanding as new recommendations are made.

All entries in the latest version of the AuSM Resource Directory are services and/or providers that have been deemed helpful by consumers. Their listing should not, however, be considered an endorsement or recommendation either by the Autism Society of Minnesota or its Board of Directors.

For convenience, all entries are listed alphabetically by clinic, organization or private practitioner. Cities, states and zip codes are written in bold-faced type so that readers can easily determine the location of particular service providers.

If you know of a service or provider that you think should be included, please submit it to us in writing (either by email or regular mail). Make sure you include the organization's name, complete address, phone number and email address. You may also include a brief statement of services provided. Please also include your name, phone number, and email address. Send these to:

Jane Hubbard
Autism Society of Minnesota
2380 Wycliff Street, Suite 102
St. Paul, MN 55114

or email them to: jhubbard@ausm.org.

We hope that you find the Resource Directory helpful in locating appropriate services for your children and families.

General Financial, Educational and Social Service Resources for Children and Families

Autism Society of Minnesota (AuSM)

The Autism Society of Minnesota (AuSM) exists to enhance the lives of individuals with autism spectrum disorders (ASD). AuSM seeks to realize its mission through education, support, collaboration and advocacy. Established in 1971, AuSM consists of families, educators, caregivers and professionals committed to supporting individuals with ASD. AuSM has members throughout Minnesota and the Upper Midwest. It provides information and referral, advocacy, behavioral consultation, workshops and conferences, support groups, and camps.

School District -- Special Education Department

Children with autism spectrum disorders are eligible to receive special education services based on individual needs. Contact your local school district for more information. For children ages birth to three, an Individual Family Service Plan (IFSP) is developed by parents and the ECSE teacher/therapist. Parents of children over three participate in developing an Individual Education Plan (IEP), which will include location, number of days, and types of services.

County Services -- Human Services Department

Each county has a department of human services (developmental disabilities/children and family/children's mental health) that provides special services to children with autism spectrum disorders and their families. To access county services, call the county and tell them you need services for a person with an autism spectrum disorder. Next ask to apply for case management services. The case manager will help to determine which services meet the needs of your child and your family. These might include respite service, family support grants, in-home waived services, or emergency assistance. This is not the same as TEFRA. (See below.)

SSI

Supplemental Security Income is a program of monthly income for a child with a disability. To complete the application process, you will need a doctor's report. The application process takes three to four months. Determination of eligibility is based on family income and assets. Call 1.800.772.1213 for more information.

TEFRA

TEFRA allows children with disabilities such as autism spectrum disorders to be eligible for Medical Assistance without regard to the income of their parents. To be eligible, the child must be under 19, meet SSI eligibility standards, need care typically provided by a group home, and live at home. Parents usually pay a monthly co-pay. Services include personal care assistance (PCA), therapist services, and medical equipment and supplies. Call your county to apply.

Become a Member of AuSM

Autism Society of Minnesota

2380 Wycliff Street, Suite 102
St. Paul, MN 55114
651.647.1083 • events@ausm.org
www.ausm.org

Your AuSM membership gives you access to those resources you need to be educated about the latest information and prepared for what life has in store. Your membership also helps you be involved with the autism community, helping you determine the best, most comfortable way for you to participate and grow.

Whether you are a family with a child who is newly diagnosed, an adult who is on the spectrum, an educator who serves individuals with autism or a corporation that wants to learn more about employing individuals with autism, the Autism Society of Minnesota provides the resources and services you need to help you accomplish your goals.

AuSM Member Benefits

- Certificate for one free Skillshop in the 2012-2013 schedule
- Lower rates for workshops and classes
- *AuSM Connections*, e-mail newsletter twice per month
- Lower rates for the Minnesota Autism Conference
- Eligibility for AuSM's Summer Camps
- Lower rates for AuSM Social Skills Programs
- Access to AuSM Lending Library
- Advocacy Updates

AuSM Member Rates

\$60 Household (includes 2 adults and children under 18; adults can include: parents, relatives, caregivers, education specialists, and/or paraprofessionals)

\$20 Individual with ASD (must be 18 or older and have a diagnosis of ASD)

\$150 Non-Profit Agency/Company

\$350 For-Profit Company

Join AuSM using the AuSM Membership Form or visit www.ausm.org to register online and learn more.

www.ausm.org is the autism community's resource for the latest information on education, events, services and more.
